# LETTER FROM THE PRESIDENT

Dear partners and friends,

After the surprising and unwelcome arrival of the pandemic in 2020, we prepared to face the year 2021 with the intention of swiftly putting an end to the previous year's misfortune.

Sadly, our hopes were not fulfilled, which meant that we had new challenges to face in order to be able to guarantee our food aid to people in difficult circumstances.

Once again, the response of the 3,100 volunteers from the 54 Food Banks has been exemplary, with their dedication and generosity making it possible for us to achieve a total of 173,000,000 kilos of food distributed amongst the 7,497 charities that have reached 1,353,276 people in need and at risk of social exclusion.

None of this would have been possible without the generous and selfless help from our community, combining the efforts and donations of citizens, foundations, private companies, charities and Public Administrations. For all these reasons, we would like to acknowledge and thank this community, which has given us its invaluable support.

Despite the difficulties we have encountered, I believe that we have fulfilled our commitments, achieving a delivery per beneficiary of 128 kilos/person/year, and at the same time we have been strengthened by the social recognition we have obtained.

We will continue our fight against waste and spoilage by rescuing food that is in a perfect state to be consumed and will continue to prevent further environmental deterioration through our activities and by encouraging supermarket chains to organise food donation campaigns in order to provide families with essential food baskets.

Our goal is to achieve equitable distribution through the efforts of society as a whole in order to prevent families from continuing to live under severe material deprivation.

We remain grateful for the help of our partners, donors and volunteers who are always willing to help us in fulfilling our commitment to society.

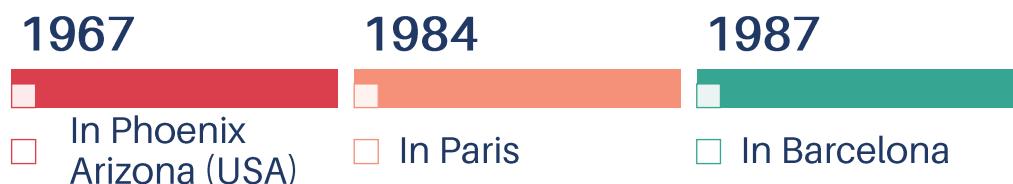

Pedro Miguel Llorca Llinares  
President of FESBAL

## Coordinated by UNESPA, 107 insurance companies donated €3.8 million to Food Banks associated with FESBAL

**“**We have decided to partner with FESBAL because of its long history and experience in caring for vulnerable groups. Its structure makes it possible for this donation to reach families throughout Spain. It is essential that no one is left by the wayside. The insurance sector's hope is that this will help us all to build a more cohesive society. May we face the future with security and confidence.

# Fruit Processing

In order to help Fruit and Vegetable Producer Organisations (FVPOs), the European Commission (EC) promotes Operational Programmes (OP) that may include the withdrawal of fruit and vegetables from the market to be delivered fresh to Social Organisations. When distribution is impossible, due to logistical issues and the perishable nature of the product, the EC gives Member States the option of processing them into a non-perishable product, such as juice, intended for delivery to the Social Organisation's Beneficiaries.

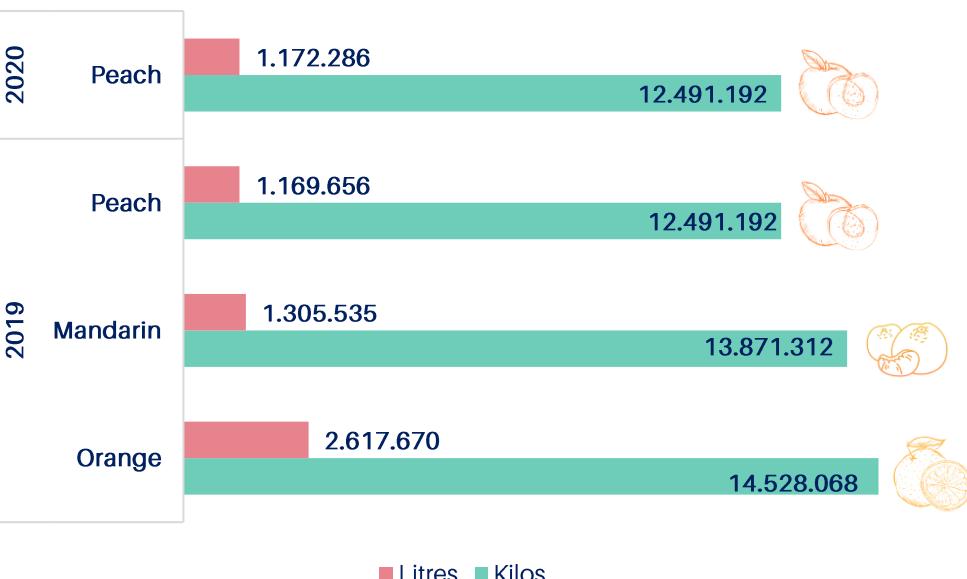

Industrial companies carry out the processing and packaging and undertake to ensure that the final product complies with the requirements of the technical and sanitary regulations on food control, hygiene and safety.

The juice must be packaged in containers bearing the EU emblem and marked "Free distribution. Not for sale".
